† Recent work (reaction 9, A.D.W. Jones, private communication) shows a number of states in  $^{17}\text{N}$  addition to the ones listed below: see Table 17.1.

<sup>a</sup> (1965HA05, 1969TH01).

<sup>b</sup> Transition seen but branching ratio not measured.

<sup>c</sup> See, however, (1969TH01).
