Registration deadline

July 31, 2003

Proposal deadline

Sept 22, 2003

General Information

The SNEAP conference gathers a community of individuals involved in the construction, the operation and applications of electrostatic particle accelerators and boosters. The topics covered include ion sources, beam optics, control systems and many other topics relevant to electrostatic accelerators. Individuals and companies interested in making presentations are invited to submit proposals.

The proposal deadline is September 22, 2003.

Location

The 37th SNEAP meeting will be held from October 13 to 16, 2003 at the "Novotel Centre Halles" conference room located in the centre of Strasbourg. Strasbourg's European character is rooted in its long history. Former free city of the Holy Roman Empire, Strasbourg is now a capital of Europe. Like New York and Geneva, it has the distinction of being home to major international organizations without being a national capital.

Host Laboratory

The SNEAP conference will be organised by the Vivitron group of the IReS Laboratory in Strasbourg, France. The IReS belongs to the CNRS (National Centre for Scientific Research). The Vivitron is one of the largest tandem accelerators ever built in the world and one of the few machines able to reach 20MV.

Registration

The registration fee will be around 300€ with an increase of 50€ after July 31, 2003. The Registration Form will be available soon on the SNEAP 2003 web site (sneap2003.in2p3.fr).

The registration deadline is July 31, 2003.

Accommodations

The Strasbourg Novotel will be the headquarters for the 2003 SNEAP. Located in the heart of Strasbourg, the hotel is within walking distance to the major architectural and cultural attractions as well as a fine selection of shops, boutiques and restaurants. Attendees should send their reservation requests to the organising committee via the SNEAP 2003 website.
